CS 135
Exercise #3
Point value: 15
Date due: send email (using mail utility) to your lab instructor by 11:59pm Wed, Sep 13

This exercise is designed to

- provide information about the CS computer lab and systems
- introduce some basic Linux commands

The file exercise03 contains a series of questions. The information to answer these questions can be found at the website for the CS Computer Lab - TBE B361 (tux.cs.unlv.edu).

- Login to your cs account.
- Use the following command to copy the exercise03 file into your account. You may choose the name of your copy of the file.
  ```
  cp ~lee/cs135labs/exercise03 yourfile
  ```
- Answer the questions. Edit the file to type in your responses.
- Email the file with your answers using the mail utility to your lab instructor. Do not forget to include your name, lecture and lab section #s, and exercise # in the subject line of your message.
